Generally speaking, multicultural education is predicated on the principle of educational equity for all students, regardless of culture, and it strives to remove barriers to educational opportunities and success for students from different cultural backgrounds. Multicultural education is a set of strategies and materials in education that were developed to assist teachers when responding to the many issues created by the rapidly changing demographics of their students. Multicultural education is not a discrete learning area, or simply the provision of Languages and English as an Additional Language (EAL). Multicultural education makes sure that all students have access to inclusive teaching and learning experiences. Multicultural education relates to education and instruction designed for the cultures of several different races in an educational system. This approach to teaching and learning is designed to support efforts in educational equity and social justice and provides resources for students and educators and valuable links to other sites.
