Sociolinguistics is the descriptive study of the effect of any and all aspects of society, including cultural norms, expectations, and context, on the way language is used. Variation is a characteristic of language: there is more than one way of saying the same thing. Speakers may vary pronunciation, word choice, or morphology and syntax. Introduction: The Study of Discourse: An Introduction The Emergence of a New Cross-Discipline In the mid-1960s, the humanities and the social sciences A peer-reviewed international journal that bridges the gap between research and practice in information design Information, resources and research on sociological theories Editor: Albert Benschop (University of Amsterdam)
