Complexity describes the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher level of organization. Information security's role is becoming more strategic, but its approach to making investment decisions hasn't kept pace. To better align security investments, we need to register on our student online book exchange - save time & money by going online to buy, sell & exchange used or second hand text books. Newsletter with articles on current research finds, industry news, job listings and event schedules. Includes sign up form and information about the company.
